

Program Overview

The majority of children and perinatal women who have mental health conditions do not receive treatment. That's where MC3 comes in.

Michigan Clinical Consultation & Care (MC3) offers **no-cost psychiatry support** to pediatric and perinatal providers in Michigan through a suite of behavioral and mental health services including same-day phone consultations, educational trainings, and resources.

Psychiatry Consultations for Physicians and APPs

Psychiatrists are available for same-day, no-cost phone consultations to offer guidance on **diagnostic questions, medication recommendations, and appropriate psychotherapy**. Your local MC3 Behavioral Health Consultant (BHC) is also available to provide recommendations for local resources.

Who is eligible to participate?

Michigan outpatient healthcare providers who treat behavioral and mental health in youth through age 26 and pregnant people up to one year postpartum are eligible to sign up for MC3 psychiatric consultations. Non-prescribing health and wellness professionals can sign up to take advantage of MC3's other resources and educational opportunities.

How do consultations work?

Provider/clinic staff initiates consultation by phone or online

Behavioral Health Consultant triages consult request

Psychiatrist and provider connect

Consult summary and resources sent to provider

Consultations with MC3 psychiatrists typically last about 10-20 minutes.

How to sign up:

Visit the sign up page on our website or **scan the QR code**.

Other services available statewide at no cost:

- **Group Case Consultation:** Opportunities for healthcare providers to convene with colleagues to discuss and review patients with behavioral health concerns with an MC3 consulting psychiatrist.
- **Perinatal Patient Care:** Expert guidance and personalized resource matching to connect perinatal patients with comprehensive community mental health resources and support.

Additional services available in select counties at no cost:

- **School-Based Consultation:** Consultation and behavioral health education for licensed school mental health professionals and school nurses (available to enrolled ISDs in Michigan).
- **Behavioral Resource Specialist:** Personalized assistance for patients with navigating local resources for behavioral health services (available only in Genesee County).
- **Emergency & Crisis Services Consultation:** Child psychiatry phone consultations for emergency providers to receive guidance on diagnostic questions and behavioral interventions (available only at enrolled emergency department partner sites in Michigan).

What else does MC3 offer?

Education & Training

Browse our library of recorded educational presentations on mental health topics and see what live trainings we have scheduled on our website. Sign up at MC3Michigan.org to receive notifications and registration information for our upcoming training opportunities.

Resources

Explore our free online resources, including Psychopharmacology Reference Cards, Pediatric Resource Library, Perinatal Provider Toolkit, Billing & Coding Guide, Crisis & Coping Workbook, and Parent Toolkit.

What is not included in MC3?

MC3 is not an emergency service. MC3 psychiatrists do not prescribe medication or provide ongoing treatment, but rather support providers as they provide care.

MC3 is funded by the Michigan Department of Health and Human Services (MDHHS) via general funds, Medicaid Administration funds, and Health Resources and Services Administration (HRSA) funds.
